

SKIING IN THE GROßARTAL IS SHEER POETRY

Tested and awarded many times
 To what extent Großarl's ski offers score in international comparison not only proves the past successful winter seasons but also the assessment by international expert judges. For example, the Großarl-Dorfgastein ski link won the 2004/05 European Ski Area Test in the categories "snow-making", "slope maintenance" and "ticket office competence" and achieved the excellent second place overall. The constantly perfectly groomed pistes have become the hallmark of the Großarl ski region. Together with the unique nature experience and the great hospitality here in the Großarl valley, these are perfect conditions to let your skiing holiday really become sheer poetry ...

Großarl-Dorfgastein ski link
 Weekend operation on 29th and 30th November 2008; continuous operation for skiing from 5th December 2008 - 19th April 2009 (provided the snow conditions allow it)
Current information on snow condition, weather and operation of lifts
Großarl ski lift operator: snow telephone 06414 / 87 14
Photo obligation
 From the 8-day ticket onwards a photo is required on the ski pass. (Possibility to take free digital photos at the valley terminals in Großarl)
Fresh snow, fresh snow, fresh snow
 We ask for your understanding that despite grooming the quality of the pistes can suffer, especially on days after heavy snowfalls, as the fresh snow that is so much loved by winter sports enthusiasts has not compacted with the compressed snowcovering of the piste underneath and thus tends to create snow heaps.
Terms of transportation for children
 Small children of a height below 1.10 m must be transported on a suitable person's lap. Children of a height of 1.10 m to 1.25 m may only be transported when accompanied by an adult. Persons taller than 1.25 m can use the transportation facility without an accompanying person.

SUMMER IN THE "VALLEY OF THE ALPINE PASTURES"

The very special thing of summer in the Großarl valley is the wealth of serviced Alpine huts. Like in times gone by, still today the farmers bring their cattle and sheep to the high-lying Alpine pastures to let them graze on the lush mountain meadows. There are almost 40 huts which provide the hikers on their tours with homemade delicacies, from a glass of fresh milk, homemade bread and the tasty yellow Alpine butter to the famous home-distilled schnapps.

In harmony with nature
 This could be the motto of your next hiking holiday in the Großarl. About 220 km of marked hiking paths will take you through the unique fauna and flora of the local mountains, as far as into the region of the Hohe Tauern National Park at the end of the valley. For mountain bikers there are about 120 km of marked trails throughout the valley.

OUR GREEN side

In the Großarl nature is still intact. Different measures, such as the supply of the villages Großarl and Unterberg with heat from the almost emission-free, wood-fired wood chip heating plant, guarantee that you will spend a wonderful holiday here in the nature.
